Chris Shields

Front End Web Developer

EXPERIENCE

Portfolio Mock Up

Implemented a web design mock-up using HTML & CSS.

Arcade Game Clone

Created a clone of Frogger, using Object Oriented JavaScript and HTML 5 Canvas.

Website Optimization

Optimized a website so that it achieves a target PageSpeed score and runs at 60 FPS. Using Chrome Dev Tools, and Gulp.

Neighborhood Map

Developed a single-page application featuring a map of a neighborhood using AJAX and third-party APIs.

Feed Reader Testing

Used Jasmine to write a number of tests on a pre-existing application.

Shields Photography Website

Used Bootstrap and PHP to build a website for Shields Photography. www.shieldsphoto.com

Take A Break, Respite Care Website

Designed and built the business website and designed the logo for Take A Break, Respite Care.

www.takeabreakrespitecare.com
